

THE STORY OF ARONUI

SAIL BEFORE THE WIND

Tāne Mahuta ascended through the 12 heavens to retrieve 3 baskets of knowledge for mankind. These baskets were embedded in the earth from which came human life.

Tāne navigated eleven other heavens before ascending to the twelfth where he received Te kete-aronui – the basket of humanities.

This basket contained the knowledge to forge a journey of discovery, to help mankind reach their full potential for earth and all living things.

Aronui is a space for innovators to set sail before the wind, to explore potential, build knowledge and lead a more sustainable future for Aotearoa and the generations that will follow.
